

Kindergartens

According to the School Education Law (Gakko Kyoiku Ho), kindergartens are considered schools and are under the jurisdiction of the Ministry for Education, Science and Technology. Kindergartens are education facilities for children aged 3 years and older which they attend in the years before they enter elementary school or compulsory education school.

They are established by the state, regional public bodies, and school foundations.

In Nishinomiya City, there are municipal and private kindergartens. Children generally attend kindergarten for a period of 1-3 years.

Nishinomiya Municipal Kindergartens are 2-year kindergartens.

(Regarding day nurseries, see the page for Child Welfare)

For children who have disabilities and need support to enter kindergartens, please enquire at Nishinomiya City Board of Education, Special Support Education Division.
